Conscio Pharma : how we are different

Integrated service offering

As a one-stop-shop CRDO, we provide all services from proof of concept via formulation development, manufacturing of IMPs to clinical studies and Quality Control under a centralized project management approach.

Customer Partnerships

Our teams strive to provide a unique customer experience in order to create long term partnerships with our customers. We are responsive, passionate, and transparent in everything we do.

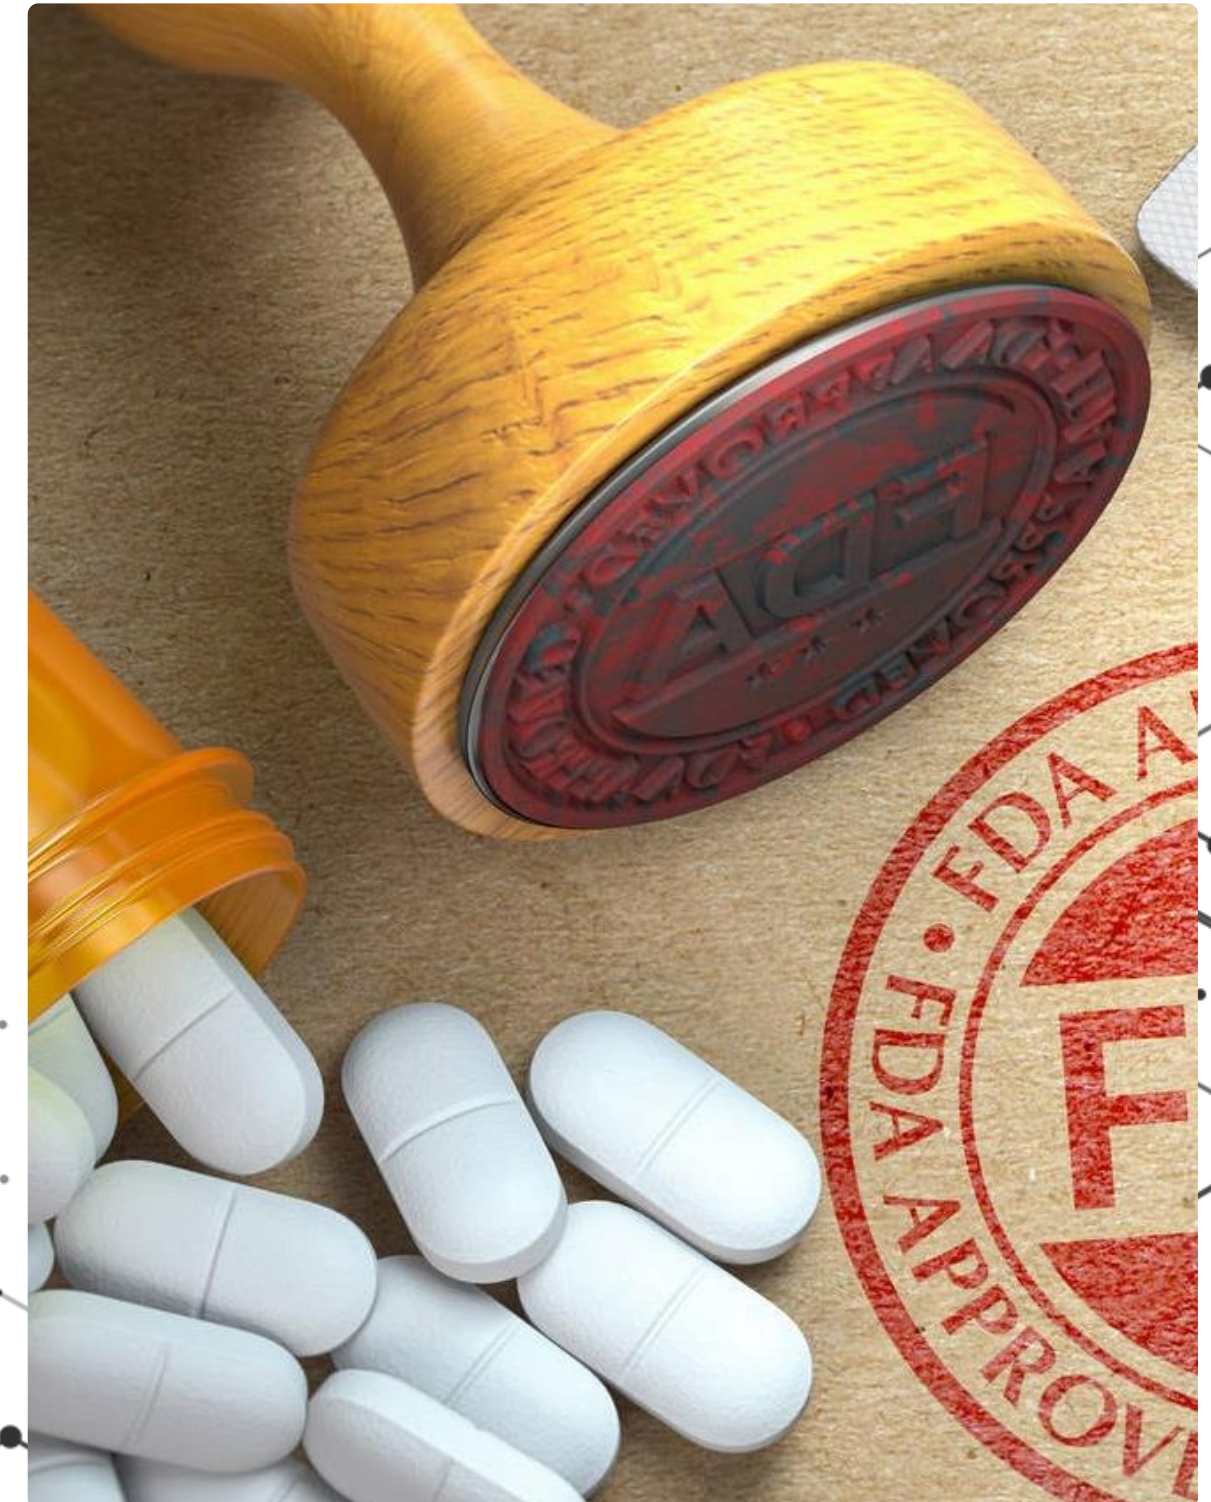

One Conscio Project Management

Our centralized approach to project management enables strong coordination of all activities within our group

Flexible service packages tailored to your needs

Modular and fully customizable service packages provide the flexibility to design your project based on your distinct needs and requirements.

Gen-Plus: Formulation development and pharmaceutical technology experts

- ✓ CRDMO offering cutting-edge solutions for pharmaceutical development & technologies, serving pharma customers worldwide
- ✓ Realization of ideas and innovations from prototyping up to clinical trial material and small-scale batches.
- ✓ Broad service array from proof-of-concept to IMP production; specialized on solids, semi-solids, liquids, oral films, transdermal patches
- ✓ Hard-to-make formulations & innovative technologies (E-Drug Delivery, 2D/3D drug printing, abuse deterrent, etc.)
- ✓ Integrated lab offering analytical services during development & GMP stage: API characterization, method development, optimization, validation, permeation studies, stabilities studies, etc.
- ✓ GMP certified for the manufacturing of clinical trial supplies (Phase I-III)
- ✓ Process all APIs from OEB classes 1-5 and narcotics within specialized isolator technology

Munich: Gen-Plus GmbH & Co. KG is a trusted leader in innovation & technology, formulation development and GMP production

Multidisciplinary laboratories
prepared to work with >30 key
pharmaceutical technologies

Quinta-Analytica: A full-service CRO

- ✓ Trusted leader in pharmaceutical services for small molecules and biologics
- ✓ Offering a broad portfolio of services including drug testing, clinical studies, and bioanalytical services
- ✓ Fully certified: GMP (Human Medicinal and Veterinary Medicinal products)/GLP/GCP; FDA & EMA (SÚKL) inspected
- ✓ Founded in 1997 with more than 220 professionals ready to support your projects
- ✓ Three locations in CZ (Prague and Brno) with a new clinical unit in Ostrava (operational by Q3/2023)
- ✓ 300+ validated bioanalytical methods
- ✓ Serving multinational clients in Europe, US, and Asia

Prague (HQ): Two fully-equipped buildings for bioanalysis, CMC, and clinical trials (60 beds).

Brno: Specialized laboratory for analyses of high potency substances.

Ostrava: Clinical unit (36 beds).

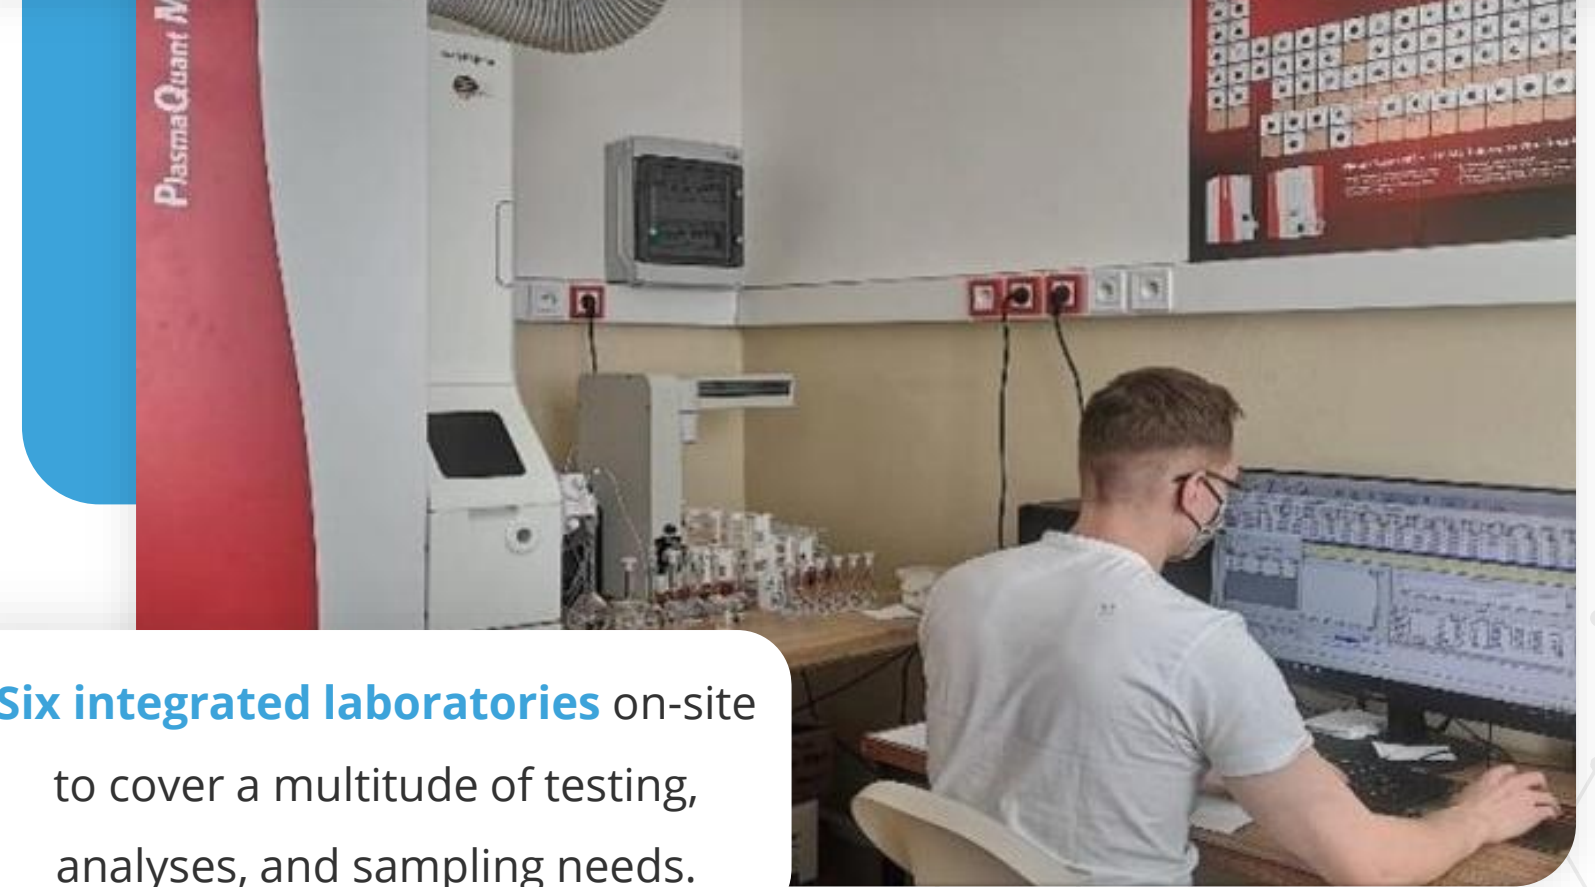

EL Labs: Microbiological testing and batch release specialists

- ✓ CRO offering an extensive portfolio of analytical services
- ✓ Microbiological analysis (sterile and non-sterile), batch release, QC analyses (human and veterinary), stability testing and storage, raw material analysis, and environmental chemistry
- ✓ GMP certified and FDA & EMA (ŠÚKL) inspected
- ✓ Founded in 1992 with more than 90 professionals ready to support your project
- ✓ The largest private laboratory in Slovakia
- ✓ Serving multinational customers

Spišská Nová Ves: EL Labs is a market leader in GMP pharmaceutical and environmental analyses.

Six integrated laboratories on-site to cover a multitude of testing, analyses, and sampling needs.

Conscio Pharma Austria: GMP-certified laboratory focused on drug analysis

- ✓ Founded in 2012. Conveniently located just a short drive from Vienna, Bratislava and Sopron.
- ✓ Reference Analytics today employs highly skilled professionals in the field of analytical services including small molecules and biologics.
- ✓ GMP-certified laboratory offering a broad portfolio of services including analytical method development, transfer and validation.
- ✓ Advanced analytical laboratories equipped with cutting-edge technology, including GC-FID, GC-MS and UHPLC instruments.
- ✓ Serving clients across the Europe and Asia for more than 10 Years.

Eisenstadt: Reference Analytics GmbH offers GMP-certified analytical and physicochemical testing for pharmaceuticals

Experts for identification, limit-testing and quantification of **nitrosamines**

- ✓ GMP-certified laboratories for microbiological testing offer services for non-sterile products
- ✓ Advanced molecular biology lab equipped with cutting-edge technology, including PCR and Next Generation Sequencing (NGS)
- ✓ Serving clients in more than 70 countries

Klosterneuburg: LVA GmbH in Vienna offers GMP-certified microbiological testing for pharma and biotech clients.

The **center of excellence** for food safety in the CEE region.

Conscio Pharma – Our values

Collaborative

We work together across teams and with our customers, combining our strengths to achieve shared success.

Curious

Always up for a challenge, we advocate for pushing boundaries, encourage exploration of new ideas, and do not hesitate to ask the difficult questions.

Transparent

We maintain open, honest communication and share information clearly with all stakeholders.

Responsive

With high engagement and a tailored approach we adapt to our customers' evolving requirements without undermining our relationships for short-term gain.
